

GFOI Phase 2.0 - MGD

Documentation of MGD Processes

Terms of Reference for Advisory Group
Standard Operating Procedure

MGD Advisory Group reconstituted

New chair

15 people

Technical focus

Stronger REDD+ country representation

MGD Plan Headlines

No intention to revise MGD 2.0 until at least after the 2019 Refinement process

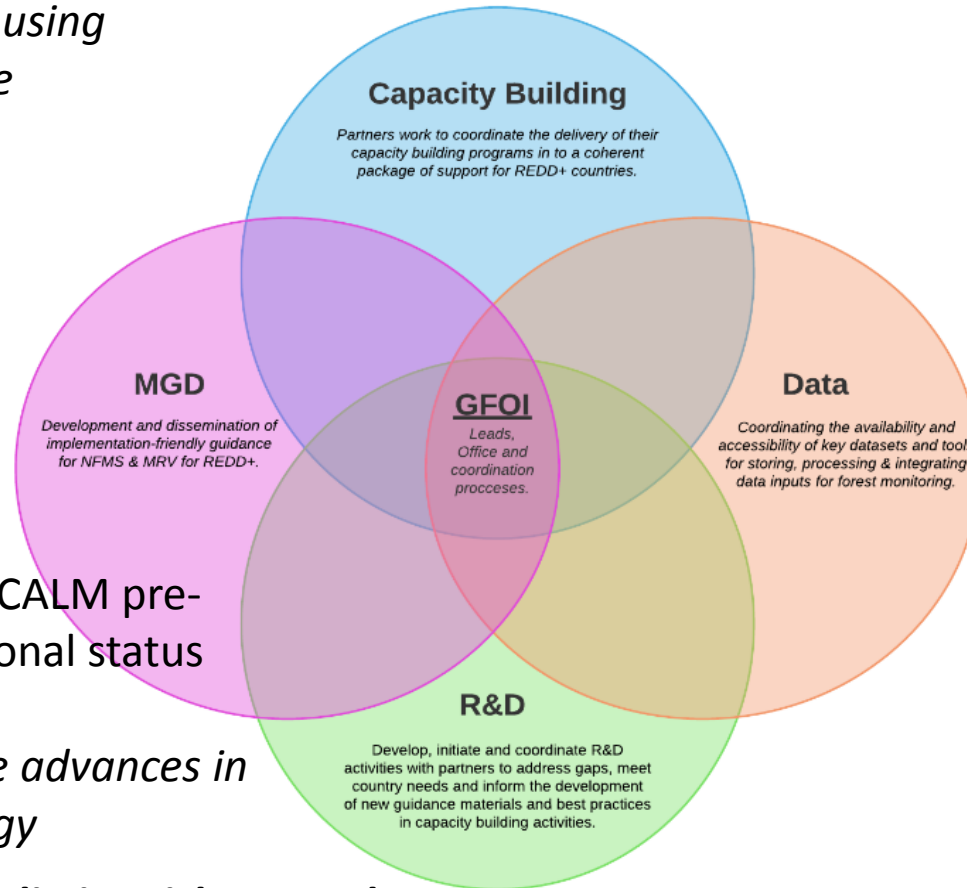

Focus on the development of new material that:

**presents lessons learned through examples
focused on supporting capacity building**

**presents advances in science and technology that
represent pre-operational/operational methods
(CALM)**

Mechanism

Lessons Learned – *Focus - to support capacity building / decision making using existing guidance*

Modules – Linked to CALM pre-operational / operational status

Focus - to incorporate advances in science and technology

Noting - Important to distinguish general challenges that relate to all land uses from forest specific challenges
